

Wisconsin Department of Transportation (DOT) and Badger TraCS Processing

- 1 The information is entered in the squad car.
- 2 The information is uploaded to the Badger TraCS database.
- 3 The information is then transmitted from Badger TraCS to WIJIS eCitation.
- 4 The information is then transmitted from WIJIS eCitation to CCAP.
- 5 The information is then transmitted from WIJIS eCitation to Wisconsin DOT.

TiPSSRecords and TiPSSCourts Processing

- 1 The information is entered in the squad car.
- 2 The information is uploaded to the Badger TraCS database.
- 3 Badger TraCS creates an XML file.
- 4 *TiPSSRecords* retrieves the XML and creates the record.
- 5 If the municipality has *TiPSSCourts* and *TiPSSRecords*, the citation is uploaded to *TiPSSCourts* from *TiPSSRecords*.
- 6 If the municipality only has *TiPSSCourts*, the citation is uploaded to *TiPSSCourts* from WIJIS eCitation.
- 7 When the citation is adjudicated the disposition is transmitted back to *TiPSSRecords* either electronically or is hand entered.
- 8 The disposition is sent to Wisconsin DOT either electronically through *TiPSSDOT* or is hand entered.

Wisconsin Department of Revenue (DOR) Tax Refund Intercept Processing (TRIP)

- 9 *TiPSSCourts* can also certify the citation for Tax Intercept using *TiPSSTax Intercept*.
